

TOGETHER FOR BRAIN HEALTH

The European Brain Foundation is an independent, multidisciplinary and multistakeholder charity, whose founding members represent leading European neurological, neurosurgical, and psychiatric clinical societies as well as neuroscience research and patient organisations.

As its first activity, the EBF looks forward to hosting a Fundraising Gala Dinner under the theme "Healthy Brains - A Key to Future Generations in Europe", working to ensure that children, teenagers, and adolescents – our future generations – are provided with the best tools and care to protect their brain health.

The EBF kindly invites you to support its initiative with any donation you may be able to provide for the cause.

GAIN EXPOSURE

Support a good cause and gain exposure for your company by getting involved!

PUBLIC ACKNOWLEDGEMENT

Be acknowledged as a supporter on public communication, including via our website and during the event itself.

WHY GET INVOLVED?

COMMUNITY GOODWILL

Support a meaningful cause, where the funds will be dedicated to young generation's brain health.

ENGAGE IN THE STRATEGY

Make impact by working on initiative to ensure brain health for youth and next generations.
