

WHO
ARE
WE?

An independent multidisciplinary and multi-stakeholder charity whose founding members represent leading European neurological, neurosurgical, and psychiatric clinical societies as well as neuroscience research societies and patient organisations.

Around 179 million Europeans currently live with a brain condition and it is estimated that 1 in 3 people will live with a neurological and/or psychiatric disorder at some point in their lives.

OUR
MISSION

To support research aimed at reducing the burden of brain disorders on society and to contribute to boosting the brain health of every European citizen.

OUR
GOAL

To raise funds for brain research and to allocate them to projects of importance.

Thematic areas include:

Brain development,
therapeutic innovation,
disease understanding,
environmental factors,
care pathways and
more.
